

Learn How to Enhance Your Top and Bottom Lines Painlessly!

Come See Why You Need Electric Connect® at RetailNow 2009 Booth #539

Aboundi's Electric Connect® solution provides networking through existing in-premise AC electrical grid. This dramatically reduces the cost of installing new systems and adding terminals to existing systems. In addition to the monetary savings, the Electric Connect® reduces the time and labor required to network a system (lower Total Cost of Deployment). The System Integrators and Value Added Resellers can easily implement the Electric Connect® Solutions to enable a faster Return on Investment (ROI) for their clients and hence, improve both the top and bottom line benefits.

Electric Connect® POS/Retail Application Diagram:

**Why Electric Connect®
Cost Saving & Time Saving & Easy**

- No New Cable™ !
- Turns electrical outlets, phone jacks, existing CATV F-type outlets and expired CCTV cables into high bandwidth local area networking infrastructure.
- No need to obtain Low Voltage cable installation permit.
- Eliminate oversight installation which may result in violation of Plenum cabling code requirements.
- Easy to extend the Ethernet connection beyond 100 meters.
- Easy to deploy - No need to drill holes and no business activity down time.
- Flexibility - Provides easy removal and reinstall which preserves capital investment.
- Easy to use embedded diagnostic tool - Capable of providing Certificate of Performance for project acceptance.
- Easy to maintain - When the network breaks it is easy to find and identify the problem.

Lower the Total Cost of Deployment !
